Automated Commercial Environment
Requirements Recommendation

Date:	**July 10, 2001**
Number:	**MMM - 006**
Requestor:	Multi-Modal Manifest Subcommittee
Customs Co-Chair:	John Considine
Trade Co-Chair:	Len Podgurny

Requirement

Add Track 4 messaging to current ACS messaging process.

New reject/warning messages will need to be created for any new codes or data elements.

Must also replicate current cargo release notification structure and codes.

Business Need

Each carrier will be transmitting a variety of bills of lading types. One of the types may be Track 4. The carrier needs to know if the information supplied by the shipper is acceptable for Track 4 release.

Technical Need

Must support both CAMIR & X12

Benefits

The incorporation of this requirement will allow smooth and efficient release of cargo at the port of discharge.

Risks

If timely notification is not given to the broker and/or carrier then delivery may be delayed.
